

Environment Policy

Christina Meyer - Wood Products is committed to the responsible purchase of forest products. We are a FSC certified company with 100% proven chain of custody on all our products. Our policy is to purchase and specify forestry products from certified wood manufacturers and suppliers only.

As a FSC certified company we will abide by the FSC written policies regarding the sourcing of FSC wood products.

- We will inform all suppliers, customers and business partners that we are FSC registered
- We will check the credentials of wood product suppliers
- We will abide by any FSC audit requests for change

Further we will incorporate the WWF-FTN UK guidelines into our policies

We will not source products from:

- Forests of forest products suppliers that do not comply with all the national and international legislation relating to the trade in Forest products
- High Conservation Value Forests where there are recognised nationally or regionally
- Protected areas, parks or similar areas where harvesting operations are not complimentary to responsible forestry management
- Forests which are currently being converted to other land uses or forests that have been converted since 1994
- Forests which are in areas of armed conflict or civil unrest where there is a direct relationship between the forest products and the funding of such conflicts

To ensure that these goals are achieved we will:

- Scrutinise our suppliers of wood forest products
- Seek information on the sources of those wood forest products
- Evaluate this information against our stated policies
- Continuously monitor and improve the level of our compliance with our state policies through annual reviews, reports and agreed actions with our suppliers
- Work with our wood forestry suppliers to maintain and improve current levels of certification
- Set annual publicly communicated targets regarding our performance
